

## GT Grade Alloy Tiagra

|            |                                                                            |
|------------|----------------------------------------------------------------------------|
| Modelljahr | 2015                                                                       |
| Material   | Grade alloy frame with smooth welds, hydroformed (TT,DT), Tapered 1 1/8"-1 |
| Gabel      | Grade Carbon 1 1/4-1 1/8" threadless alum steerer                          |
| Bremse     | V:TRP Spyre mechanical disc road brake, 160mm rotor, H:TRP Spyre           |
| Schaltung  | Shimano Tiagra STI 10 spd                                                  |
| Größen     | XS(48), S(50), S/M(52), M/L(54), L(56.5), XL(58), XXL(61)                  |
| Farben     | GLOSS WHITE                                                                |

|                |                                                                              |            |                                  |
|----------------|------------------------------------------------------------------------------|------------|----------------------------------|
| Reifen         | Continental Ultra Sport II 700 x 28 120tpi, wire bead                        | Bremshebel | Shimano Tiagra 10 spd STI        |
| Felgen         | Alex ATD470 disc specific road 22mm tall profile                             | Pedale     | Low Profile Nylon w/ Toe Clips   |
| Naben          | V:Formula 6 bolt disc sealed 28h, H:Formula 6 bolt disc sealed cassette 32h  | Kurbelsatz | FSA Vero Compact 50alloy/34alloy |
| Sattel         | New GT Bio-Morphic ROAD dual density base                                    | Zahnkränze | Shimano Tiagra 10sod 12-28       |
| Sattelstütze   | two bolt aluminum                                                            | Kette      | KMC HG53 10spd                   |
| Sattelklemmung | New Alloy blk ano                                                            |            |                                  |
| Lenker         | New GT DropTune Ultra Light double butted 6061 alloy bar with 14degree flair |            |                                  |
| Vorbau         | GT Design 3D forged 6061, 4 bolt face plate                                  |            |                                  |
| Griffe         | Velo Cork                                                                    |            |                                  |
| Steuersatz     | Integrated TH sealed bearing                                                 |            |                                  |
